

OLC #78-4021/5

OGC

OGC 78-6429
27 September 1978

NOTE FOR: Deputy Director of Security

STAT FROM :
Assistant General Counsel

SUBJECT: Follow-up Questions Concerning General Counsel's
Testimony on 19 September 1978 Before House
Subcommittee on Government Information and
Individual Rights

Sid:

1. Attached is a memorandum I sent to OLC, in partial response to this subject. You should note that the report we made to Justice in February 1975 concerning the Nosenko case contains some sanitized Office of Security documents. Pat should be checking with the Office of Security soon on passage of these documents to the Subcommittee.

2. You may recall that we discussed two subjects shortly after Tony testified. These are mentioned in paragraph 2 of my memo to Pat:

a. One question concerned any Office of Security internal directives or guidance regarding Agency contacts with state and local law enforcement authorities about Agency operations that may be uncovered by state or local investigations or prosecutions.

b. The second question concerned whether or not we have done independent investigations (full background as opposed to national agency checks) of defense counsel in criminal cases that involved Agency information.

3. Would you please give me any input you will have on these questions.
